The old Liberty Bell, which has been or exhibition at New Orleans, will begin its return tour on the 17th.

"Mr. President, I-arise-to-place-in-nomi nation-a-man" will soon be heard in the Market Square Tabernacle.

The man who says: "Is this hot enough for you," blooms forth with tantalizing persistency-he is not dead.

It is something to note that the Repub licans of Ohio are a unit for the no of the Springfield Convention.

If the Russians were really very sure the point at which the English would fight, they would play around the place with just such heathonish presumptiveness that has already aggravated the British

Big Bear, the successor to Mr. Riel, of the Northwest, is painting the line of his retreat red with human blood.

The things and friends of this world, like Absolom's mule. run away and leave us when we have most need of them.

In the event of a dark horse at the convention, it is just as well to re-aember that Springfield is handy to call and is very, very lucky, also willing.

The only way to make readily good Indians out of the murdering Apaches of the Northwest is to take them in hand, also with a spade, after the coroner's inquest.

It appears that Miss E. Cleveland is reaching after Gail Hamilton's "old shoes" with a vigor that promises to throw a great deal of extra trade to the corset factories

From present indications it will become necessary to place over our high bridges tin signs explaining to the people that the structures are intended for safe transit of the water, not to jump from.

Miss Cleveland's essays contain the aphoristic saying that "manners are not character, but they are the dress of charcter." If this be true the wardrobe of ome "characters" is shockingly scant.

Fried cicada, a savory and seasonable dish made of seventeen year locust, is, according to Prof. Riley, the etmologist, also a bealthful article of diet. What we wish to say on the subject is that the English sparrow is utilizing itself by taking the lo cust rare.

Clement Russell, of Massillon, is an sounced as a candidate for member of Board of Public Works, at the coming State Convention. Mr. Russell is well and favorably known and highly recommended for the position by prominent business men of this city.

Look out for the seventeen-year locusts; they have already invaded Southern Ohio, and the vicinity of Cincinnati swarms with millions upon million. They eat no vegetation, care nothing for corn or wheat, but confine their operations entirely to trees and shrubs, devouring delicate twigs and the ends of branches.

The Dayton Journal and the Columbus Journal are becoming "offensively partisan" to each other. The former hoists picture of J. B. Foraker with the motto "Victory for the Republican Party," while the Columbus Journal gives us John Beatty and his Biography. Really the wigwam will contain something very warm next Thursday.

It is published as the opinion of Dr. Sands, one of Gen. Grant's physicians, that the general will die early in September, while Dr. Shrady believes he will not die before December 1.

Since the Doctor's disagree we decide that Gen. Grant may live long after Sauds' sand runs out and Sarady becomes shroudy.

Mr. John Bright, in answer to a letter from an American friend asking if England would return to the policy of protection, writes as follows:

slavery. England's present danger is in its foreign policy. The Tories and Liberals are equally blamable for the lunatic policy of adding millions to the military expenses of the nation while trade is depressed and the poor are badly housed."

There seems to be something of a hitch in the negotiations between Great Britain and Russia on the Aighan question, the final agreement heretofore reported as announced having been contradicted by Earl Granville. Meanwhile Russia is pushing the railway from the Caspian Sea to Herat and will be ready for the next squabble while England is relaxing, and has stopped naval and military preparations.

A special correspondent sent out by the Commercial Gazette, after a pilgrimage through Central Ohio says:

It may be put down that the supporters of General Kennedy are deeply in earnest, and people who have got the idea in a general Kennedy was of a friendly and complimentary nature, will find themselves mistaken. The Kennedy men are going in to stay, and all up through the General's home there is a singular confidence in his success

The desk at which the President sits was presented to the United States by Queen Victoria during the Hayes administration, and was formerly a part of the Arctic relief vessel Resolution, which went in search of Sir John Franklin. After numerous encounters with the ice in the Polar regions, the Resolution became disabled, and was found drifting helplessly and secured by a United States man-of-

It is reported that the Hessian fly, in myriad numbers, has appeared in the Kansas wheat fields. The farmers this year, if all reports are true, are to have a most melancholy time of it. What with the low prices, the winter killing and the late spring preventing timely seeding, it is thought that considerable unhappiness will continue to hover about the acknowledged main-spring of general prosperity in the country. However, it must be remembered that grass-hoppers by the million, also Hessian flies in like numbers, are easily flown to wing, in the proper localtics, by our highly imaginative speculators of the Board of Trade. We congratulate our agricultural brethren therefore, that, if the speculators succeed, they may sell their wheat at high prices finally, and may trust to the speculators for getting rid of

The fight in the Wigwam, beginning next Thursday, will be between Foraker Beatty and Kennedy. Foraker and Beatty are very evenly matched, with Kennedy as a strong third. While it is difficult to determine, in fact impossible, to make any rational guess as to the result, it should not be forgotten that Mr. Foraker has said, presumbably in the event of his own defeat in the Convention: "My friends could not please me more than to nominate Capt. Asa S. Bushnell, of Springfield."

The fines assessed against the old soldiers who fired the salutes at Washington over the election of John A. Logan have peen remitted. The Commercial Gazette makes the above announcement in order to stop the dime contributions for the purpase of paying the fines. The Commer-

Herat is one of the oldest cities of the East, and was once one of the richest. To use the word of a Persian geographer, "the city has been fifty times taken, fifty times destroyed, and fifty times it has arisen from its ashes." Six hundred and sixty years ago it contained, according to the records of the period, 12,000 retail shops, 5,000 public baths, caravansaries and water mills, 350 schools and monastic instiutions, and 144,000 occupied houses, and was yearly visited by caravans from all parts of Asia. English Generals and the Generals of Russia value Herat, not solely on account of the city, but on account of the resources of the district in which it is situated-resourses in corn and beef, which, if swept into any point of the Herat district, not necessarily to Herat itself, would teed an army of at least 100,000 men, and sustain them during the final advance upon India. It is this great campaign ground, and not exclusively the town of Herat, that is they Key of India.

Before another issue of the Sunday GLOBE-REPUBLIC, the State Republican ticket will have been made, and the Springfield Convention will have passed into history.

That the Committee which decided to hold the Convention in this city may not be liable to censure, after the fact, it behooves our citizens to manifest all possible public spirit in seeing that the Convention is properly cared for. That the Champion City will be utterly jammed full of people, is beyond any doubt, and that the capacity of the city will be strained to its utmost is no small consideration, nor rifling circumstance.

The no small question will be decided next week, and that question is in the hands of Springfield people, as to whether State Conventions can be held with satisfaction outside of Columbus, whether in fact, geography and other minor considerations will forever compel the political parties of the State to make their sacrifice of personal comfort in favor of that city.

however, and after the Convention it will be satisfactorily demonstrated that the Champion City may take another C., and be known also as the Convention City.

## THE CRISIS REACHED.

The Springfield Base Ball Club to Dishand Monday Unless Assurances are Given for Salaries Due and Unpaid—It is Put Up or Bust Up.

Manager Fisher organized the present base ball team on assurances of parties whom he regarded as trustworthy and responsible of all needed support in the way of financial backing, and he performed that duty well, making up a team that has already reached the top of the list in the Inter-State League with every prespect of holding that prou position to the close. The "perty of the second part" has not responded to any app eciable extent; patronage of games played here has been as light as could be and have any spectators at all, and the solemn fact that the managers and friends of the club now have to face is that the salaries of players are \$500 in arrears.

As already intimated there is great discontent among them on this account and a disposition to quit before matters are any worse. The players, at least several of the principal ones, openly mutinied, solely on the ground of unpaid salaries, when notified of the Richmond trip last night, and refused to go unless guaranteed payment positively. After some negotiation and persussion on the man-ger's part they agreed to go upon the Richmond trip, playing there and tomorrow, with the distinct understanding that, if the people here who protess an interest in the sport and a desire to have a first-class team kept up, had ione nothing me atime in the way of suberiptions toward support of the club it would dishand on return from Richmond next Monday, and all the players released. This is the rugged issue near at band. With a large class of people it wi'l be a terrible "burn" on the city if the club is allowed to dishand and we may expect never to hear the last of it from Dayton. At all events it will not be doing things Springfield fashion. Parties are calling upon our citizens in this matter, and upon the result of their canvass the whole thing

depends. What do you say? It has been charged that the season began too early and perhaps that is true. Certainly bad weather has had something to do with the small crowds attending games. It s believed with everything in good shape, as at present, and the local team playing good ball, there will be an immediate change for the better in this respect. Already plans are on foot to bring here some of the best and most famous League and Association teams in the country, which cannot be done if there is no club to meet them. Some grand sport, right at hand, will be missed, if the few hundred dollars necessary to keep matters moving over the existing crisis, be set forthcoming.

the Time Fixed by the Magnates for Erec

tion of the new \$25,000 P., C. & Passenger Station Here. Supt. Raiph Peters, of the P., C. & St. I. Ry.; General Passenger Agent, E. A. Ford; District Ditto, D. I. Roberts; Supply Agent A. Huston; Asst. P. A , Frank Van Duzen and Mr. Ford's private secretary, Mr. Moturd, came in on a special Friday evening and remained several hours, on business. About the most important item of information made public by the advent of the gentlemen named s that the much talked about new brick passenger station, of which the local press given columns of description. as the structure appeared on paper, is to be built, not this summer or next summer, but some other summer. The party inspected the Oll Gold castle, made of mate rial from the first railroad passenger station ever erected on Ohio soil, decided to "paint 'er red" and move her up to a level with the Limestone street line, or nearly that, and make her do for Panhandle patrons a little matter of a couple of centuries or so longer. The Panhandle likes to do things on the giltedged, asthetic plan, when it does them, and as the times do not warrant them carrying out plans formed two years ago or so, and the business of the Springfield branch is not up to the standard, the enterprise is deferred stil times become better and local patronage a more encouraging. The round house will be unished up this season, however, and a

force of men were put to work on the foundations yesterday. The gentlemen attended to some routine business and left during the evening. They have arranged to bring the crowds from along their lines to the convention next
